PANEL LATCH GS-LC-PK32, GS-LC-PL32 Quick Installation

- Lever and key are compatible.
- Turning the lever or key 90° counterclockwise to unlock the latch.

Two types of lock/unlock methods available: lever type and key type.

- With temporary holding function that holds the latch in unlocked state. Even if multiple latches are installed, door can also be opened at once by keeping all of them temporarily held.
- Key type prevents the door from opening unexpectedly.
- Compliant with flame retardancy standard UL94 V-0.Built-in spring is made of stainless steel (SUS304).

[Product Ordering]

- Lock/unlock with key: Order body (without lever) + key.
- Lock/unlock with lever: Order body (with lever).
- Change from key to lever: Order lever.

[Remarks]

- Do not use the lever or key as a knob. It may cause damage.
- Do not reuse the lever once removed from the body.

[Sold Separately]

- Lever (attached to GS-LC-PL32)
- Key

[Cut Out Dimensions]

[Quick Installation]

1. When inserting the body in the mounting hole, the hook is stored inside the body.

2. After installing, the hook returns to its original position.

[How to Install the Lever]

1. Insert the lever straight.

2. Until it snaps, check if the lever tip completely protrudes the body bottom.

Lever opened (unlocked)

[How to Unlock with Key]

1. Insert the key

2 Turn the key left by 90°

3. The latch is stored in the body. At this moment, the latch will not return to its original position even if you release the key.
